	logged hours.	
	Added a field for Bill For Services, User Notes for Invoice,	
	these notes will appear on the invoice with the Description.	
	This in event the user wants to indicate the date of service	
	or any other relative information	
6/4/2013	Corrected an issue when adding new contacts that if the	
	page down key was pressed it was looking for new record.	
	Page up/down no longer allowed when adding contacts.	
6/3/13	Corrected an issue when editing an invoice and deleting an	
	item with Access version 2007 and above, after deleting an	
	item an error message appeared and would lock you from	
	closing the edit invoice form	
5/30/13	Added a Built in Sort Option when viewing Major Event	
	Participants to accommodate clients running MS Access	
	Runtime.	
4/22/2013	Added new ability to use the Bill for Services when selecting	
	a payment type of invoice in Networking Events. Prior	
	Versions required manually creating an invoice where as	
	now it is created automatically. Also tied in the relationship	
	to open/closed invoices when either receiving payments,	
	deleting payments for deleting the entire invoice	
	Added over 50 new reports to Reports A Financial Reports	
	and Owner/Member reports

	include partial payments, one for full payments only. The	
	reports added now group the payments by Month for the	
	request date range	

10/22/12	Added ability from Viewing Invoice Payments to View the	
	invoice and set any invoice item related to a major event.	
	This being in the event rather than using Major Events, an	
	invoice was created. This income will then appear in the	
	Event Net Calculation of Reports A	
	Add ability to view past reconcile reports from Income	
	Registers	
10/11/12	The Auto Lien Processing was modified for easier	
	understanding based on feedback from existing users. The	
	user now can view and process one status at a time. There	
	are 4 options being 1) Candidates are now selected and	
	processed with 1 <sup>st</sup> letter sent; 2) 1 <sup>st</sup> letter sent status is now	
	processed to lien filed. 3) A lien filed status can now be

	opening the program. Program execution will halt if the	
	references are missing for any reason or have changed	
	physical location.	
	Added a View Deposit slip when viewing Registers for	
	Grouped Deposits. This in the event the user forgets this	
	before completing the deposit in "Make Deposits" form.	
	Added Capability to Pay Payroll Liabilities from any Register	
6/30/12	Modified Enter Bill to allow for a negative total that will not	
0/00/12	be logged to the register. This then allows entry of a bill	
	that may have a total net credit such as a credit card bill	
	where a refund issued exceeded other charges that need to	
	be recorded.	
	Corrected change password routine, previous changes did	
	not account for the effect on this process.	
	Re-arranged the Data Utilities Menu that put the	
	"RESTORE NOW" button at the bottom and not next to	
	"BACKUP NOW". This helps to prevent accidentally	
	Restoring older data if done before the Backup. Restore Now should only be done when directed by BAAC.	
	I NOW SHOULD ONLY DE COME WHEN CHECKED BY DAAC.
